

FACES OF HAYWOOD

“Even before J.M. Teague Engineering and Planning (JMTE) opened its doors for business in March 2010, Mark Teague knew the importance and benefits of being members of the Haywood Chamber of Commerce. The Haywood Chamber has provided value and opportunities for JMTE to demonstrate its commitment to giving back to the community while enjoying the benefits of building both business and personal relationships through networking opportunities, special events and service projects. The Chamber’s website has provided a continuing source of relevant information about Haywood County’s exceptional resources and business opportunities. Moreover, Chamber’s exceptional leadership continues to effectively promote Haywood County locally, regionally, and nationally. Our annual investment in the Haywood Chamber continues to yield immeasurable results. There is company pride in being continuing members of the Haywood Chamber.”
