

FACES OF HAYWOOD

“Shortly after graduating the University of Georgia College of Veterinary Medicine, in 1980, my practice Balsam Animal Hospital was opened in June of 1986. I had spent two years practicing in New Orleans but having grown up in Carolina's, the lure of the mountains brought me home. I enjoy the beauty of Haywood County and the long hikes in the mountains. I am grateful for the support of our community, clients, and the Haywood Chamber of Commerce. I am proud to be a member of the Chamber having the ability to connect with other like-minded folks. Our Chamber is a vital bloodline to the business community offering many networking opportunities.”
